
Le Griddle
A Bold New Standard
The World's Finest Griddle — Elevated
*OML105P3 & OML105BLKPNL Shown

Built from a simple belief:

When the perfect griddle doesn't exist — build it.

The Le Griddle Story - From France to Texas

2005 — The Search

I bought my first griddle. It rusted. I bought another. It didn't rust but it didn't perform. As a passionate cook, I wanted powerful, even heat, perfect searing, easy cleaning, and absolute gas safety. It didn't exist.

2006 - 2010 — The Breakthrough

Years of testing led to the **Dual Plate System** stainless steel fused to cast iron. It was the cooking experience I had been searching for.

2010 — The Invitation

While visiting France, a friend from Austin, Texas discovered my griddle and said, "You need to bring this to America." That conversation changed everything.

2013 — Entering the U.S.

Our first 30" two-burner model launched across America as I introduced Le Griddle through trade shows, demonstrations, and cross-country travel. The beginnings were challenging, but I believed in the product.

2014 — A National Stage

Competed at the World BBQ Championship, Le Griddle gained momentum. That year, we exhibited at HPBExpo, where our first U.S. partnerships began.

2016 — Texas Growth

A pivotal Texas distributor embraced the brand. From that moment forward, growth accelerated across the U.S.

2017 - 2019 — Expansion

The lineup expanded from compact single-burner models to full three-burner units, with lids, carts, liners, and electric versions. What began as small shipments grew to pallets and eventually full containers. The foundation was set.

2020 — A Defining Moment

The global pandemic halted production and shipping for months. It was a challenge but also provided clarity. To strengthen quality, service, and long-term growth, **the next chapter would be written in America.**

2023 — Made In Texas

Le Griddle proudly became Made in Texas, uniting French engineering heritage with American manufacturing strength, precision, and service.

2026 — Raising The Standard

Everything is bigger in Texas. Building on our multi-layer plate expertise, we launched the Triple-Plate System with the Texas Sea Glass Finish, new Commercial and Pro Series collections, and a line of premium accessories.

— Remy Lampaert
Founder

- A personal thank you to Kris, Gilles, and Jeff. The Lord placed you on my path for this success. -

DESIGN IN THE DETAILS

Patented Triple-Plate System

The aluminum diffuser accelerates heat transfer from the cast iron to the 304 stainless steel cooking plate, improving temperature consistency across areas without direct burner heat.

Solid Cast Iron Core

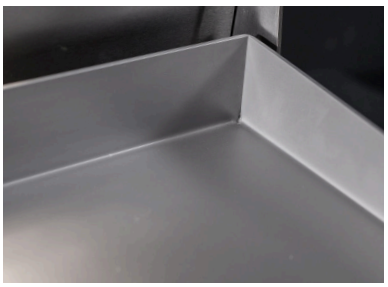

Engineered from ½" thick cast iron to efficiently absorb, retain, and distribute heat, delivering exceptional thermal stability and consistent cooking temperatures across the entire surface.

MADE IN TEXAS

304 Stainless Steel Housing & Burners

Durable housing and tubular burners built for lasting performance.

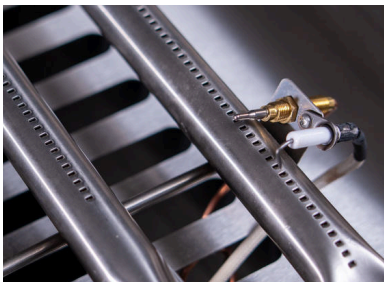

Texas Sea Glass Finish

The bead-blasted matte surface enhances scratch resistance, supports consistent searing, and allows for easy cleanup.

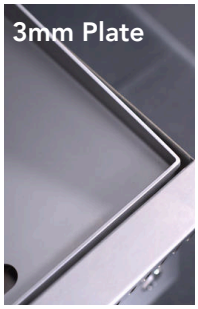

Flexible Fuel & One-Touch Ignition

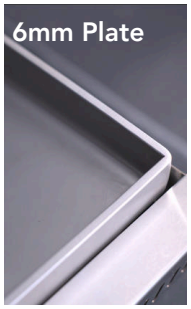

Choose propane or natural gas with reliable electronic ignition.

Thermocouple Safety Valve

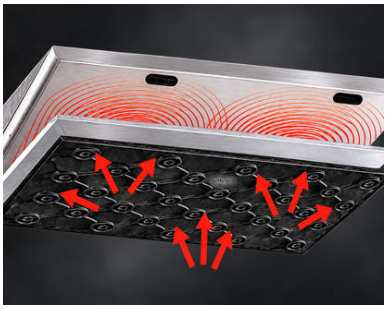

Automatically cuts gas flow if the flame goes out.

Choice of Cooking Surface Thickness

Available in two stainless steel thicknesses (3mm or 6mm) across both Commercial and Pro series griddles.

Optimized Fuel Efficiency

Precision Heat Architecture improves heat distribution to help reduce gas consumption.

GAS GRIDDLES

Crafted with premium 304 stainless steel housing, burners, and cooking plates, Le Griddle gas griddles combine exceptional performance, precise heat control, and enduring durability to elevate the culinary experience, from the heart of your home to your outdoor retreat.

*Shown with 3mm cooking plate

Pro Series

The Pro Series combines precise heat control with elevated design and premium features for an exceptional cooking experience.

Key Features:

- Patented triple-plate cooking surface
- 3mm or 6mm plate options
- Integrated halogen cooking lights
- Color-changing LED control knobs
- Drop-down front panel, concealing grease trays
- Bead-blasted matte cooking surface

Available Sizes:
16 inch · 1 Burner | 30 inch · 2 Burners | 41 inch · 3 Burners

*Shown with 6mm cooking plate

Commercial Series

Sleek, powerful, and purpose-built for performance. The Commercial Series pairs professional results with a streamlined design for serious entertainers and commercial environments alike.

Key Features:

- Patented triple-plate cooking surface
- 3mm or 6mm plate options
- Removable front panel, concealing grease trays
- Bead-blasted matte cooking surface

Available Sizes:
30 inch · 2 Burners | 41 inch · 3 Burners

All models include adjustable leveling feet for stable tabletop placement.

ELECTRIC GRIDDLES

Experience the convenience of electric cooking with precise temperature control, indoor and outdoor versatility, and durable 304 stainless steel construction throughout the housing and cooking plate.

WHILE SUPPLIES LAST

Wee Series

No gas. No compromise. The Electric Series delivers the same consistent, even heat performance with a powerful 1800 W heating zone and precise temperature control.

Key Features:

- Patented dual plate cooking surface
- Single heating element
- 120 V electric
- Adjustable temperature control (0–100%)
- #4 brushed stainless steel cooking plate
- ETL certified

Available Size:
16 inch · 1 Burner

NEW

*Shown with 3mm cooking plate

Commercial Electric

The Commercial Electric brings the updated design of our Commercial Gas Series to electric cooking. A 3mm bead-blasted cooking plate, improved grease tray design, and dual heating elements combine practical functionality with streamlined Commercial Series styling.

Key Features:

- Patented triple-plate cooking surface
- 3mm bead-blasted cooking plate
- Dual heating elements, separately controlled
- Two 120 V plugs (one per heating element)
- Adjustable temperature control (0–100%)
- ETL certified

Available Size:
30 inch · 2 Burners

All models include adjustable leveling feet for stable tabletop placement.

Plug In. Heat Up. Griddle like a Pro.

Electric griddles eliminate the need for a gas line and are ETL certified for both indoor and outdoor use. Each unit features powerful 1,800 Watts heating zones that deliver consistent, even cooking performance. With simple setup and no complicated installation, reliable cooking is ready wherever you need it.

A PLACE FOR EVERYTHING

Portable Carts

Turn your Le Griddle into a complete freestanding cooking station. Durable 304 stainless steel, convenient storage, and folding side shelves bring everything together.

*OML105P3, GFCART105 and OML105BLKPNL shown

*GFCART40 shown

Integrated Storage

Keep cooking essentials close at hand.

*GFCART75 shown

Folding Side Shelves

Extra prep space when you need it. Fold down for a smaller footprint.

304 Stainless Steel | **Locking Swivel Casters** | **Freestanding Flexibility**

Refer to the back page for cart models and compatibility. Griddle sold separately.

THE FINISHING TOUCHES

Practical additions for a polished, protected cooking space.

Lids

Keep your griddle protected and ready for every cook. Crafted from 304 stainless steel, these lids shield against the elements while maintaining a clean, refined look.

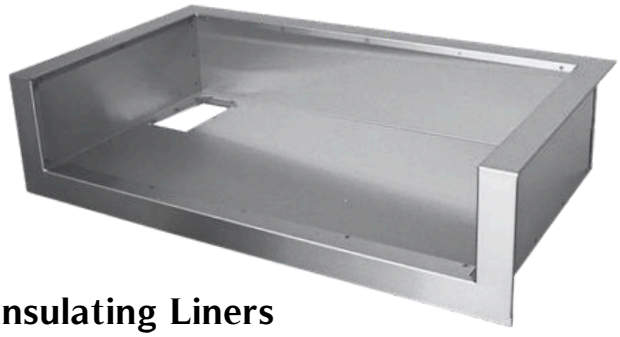

Covers

Protect your griddle from sun, rain, and debris with durable vinyl covers designed to keep it looking and performing like new.

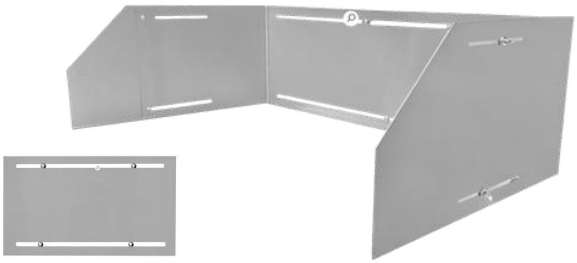

Trim Kits

Made from 304 stainless steel, these trim kits give your griddle a sleek, polished built-in finish.

Insulating Liners

Heavy-duty 304 stainless steel liners add strength and protection when installing your griddle in cabinets made with combustible materials.

Universal Wind Guard + Extension

LGUWG | LGUWGE

Shields burners from strong winds in exposed areas, such as coastal locations or open outdoor kitchens.

**All 105 models require the extension kit.*

Pro Series Matte Black Front Panel

Upgrade your Pro Series griddle with a durable 304 stainless steel front panel, powder-coated matte black for a bold, modern finish.

Refer to the back page for model numbers and compatibility.

Made to Complement Your Griddle

ACCESSORIES

Professional-grade accessories built for performance and durability, featuring stainless steel construction, select diamond-textured handles for superior control, and dishwasher-safe components for easy cleanup.

Scoop Spatula
LGGSS

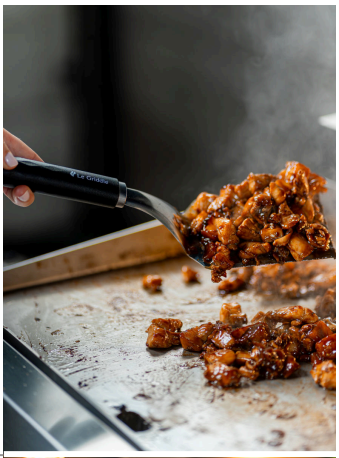

Durable scoop spatula with a large 7" shovel-style head for moving and serving generous portions.

Long Spatula
LGLS

7" head with three beveled edges and one serrated edge for versatile lifting, flipping, and cutting.

Square Spatula
LGSQS

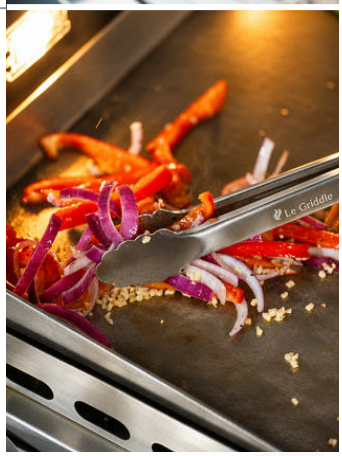

Rigid 4" square spatula features three precision-beveled edges for effortless lifting, chopping, and scraping.

Large Tongs
LGLT

Designed for comfort and control, these stainless steel tongs feature a soft, non-slip grip, sturdy construction, and a locking mechanism for compact storage.

Cooking Kit
LGCK

Every great griddle starts with the right tools. This durable set includes (2) long spatulas, (1) square spatula, and (1) set of large tongs for effortless prep, cooking, and serving.

Silicone Gloves
LGG

Heat-resistant silicone gloves with soft cotton lining for comfort and a secure grip when handling hot cookware or cleaning your griddle.

Grease Tray Liners
LGTRAY20

Disposable aluminum liners fit neatly into the grease tray to reduce mess and simplify cleanup. Includes 20 liners.

Bench Scraper
LGBS

An essential multi-purpose tool for prep and cleanup. The crafted blade effortlessly chops and scrapes cooked on food with ease.

Burger Press
LGBPXL

6" square burger press ideal for burgers, sandwiches, and more. The weighted design applies even pressure for a consistent sear that locks in flavor.

Cleaning Kit
LGCLEAN

Keep your griddle ready for every cook. Includes handle and three replacement scour pads.

Squeeze Bottle
LGBBT

30 oz BPA-free bottle with an opaque black body to protect light-sensitive oils and a clear viewing window for easy monitoring. Includes two interchangeable lids.

Replacement Scour Pads
LGCKR

Heavy-duty pads remove buildup without damaging the surface. Compatible with the cleaning handle. Includes 10 pads.

Cooking Dome
LGCDXL

Traps heat and moisture for melting, steaming, and splatter control. Includes a built-in temperature gauge plus an elevated rack for pizzas, breads, and more.

Warming Rack
LGUWR

This 13" rack expands your cooking surface while keeping food warm. It features removable feet and end slots that allow multiple racks to connect for larger griddles.

Taco Racks
LGTR

Includes two taco racks, each holding up to five tacos for easy filling and serving. Silicone handles allow for safe transport. Perfect for tacos, desserts, and crêpes.

This warranty does not cover normal surface corrosion, discoloration, scratches, or surface rust that may occur over time. Improper maintenance, exposure to salt spray, chemicals, or pesticides may affect the appearance and integrity of the product's components and are not covered under warranty. Failure to follow the instructions outlined in the owner's manual may also void warranty coverage.

This non-transferable warranty is limited to a one-time replacement of original defective parts and does not include shipping or labor costs associated with the removal or installation of replacement parts.

The original owner must retain and provide proof of purchase when submitting a warranty claim. Product registration is not required.
